

Steven van Rossum

General Director (CEO)

World Waternet

steven.van.rossum@waternet.nl

World Waternet is founded in 2007 and is dedicated to improving water quality and wastewater treatment across the globe. World Waternet shares high-value hands-on knowledge and skills of the whole water cycle in long-term Water Operators Partnerships (WOPs), Joint Ventures or knowledge partnerships. Through sustainable long-term partnerships, World Waternet aims to improve the performance and build capacity, reduce risks and thus make governance and operations more bankable for investments in the water sector. Waternet is the water company for Amsterdam and surrounding. It is the only water company in The Netherlands covering the whole water cycle.

After finishing his study on Social Geography, Mr. Van Rossum chose entrepreneurial freedom and worked for various commercial and public organizations as an interim manager. Before joining World Waternet, Mr. Van Rossum joined Waternet in 2007 as an interim manager.

At World Waternet, Mr. Van Rossum brings together knowledge, partners and funding. This way, World Waternet is part of the broader global movement to achieve the Sustainable Development Goals.
