Note: Please note that SERI has revised the previous GRP growth estimates. The release of the State GRP figures in the 9<sup>th</sup> Malaysia Plan (9MP) as compiled by the Economic Planning Unit (EPU) provides SERI with a point of reference for its GRP projections for the State. SERI's estimates of GRP are compiled and projected based on data available at the State level. To a large extent, it is dependent upon the cooperation of both public and private sectors in voluntary and timely disclosure and reporting of data. However, due to the insufficiency of state level data, SERI has discontinued the estimation of state level's GRP since 2006 and onward.

\* It should be noted that the decline in visitor arrivals in general and international visitor arrivals in particular in 2005 compared to 2004 was partly due to the different basis of estimation for the two periods. Thus, the two sets of figures are deemed incompatible due to the different bases of estimation for the two periods.
